FERRARI couplings (pipes and fittings) are widely used in farming, gardening, industry, construction, road and tunnel building, groundwater drainage, sewage treatment plants, wastewater disposal and environmental engineering. Coupling design allows angular deflection of the connected coupling (max. 26° in small sizes, 20° in big sizes). Available in a wide pipe diameter range (48, 60, 80, 100, 120, 150 mm), as a version with three hooks (for higher working pressure) and made of AISI 304 steel.
